CLAIMS

What is Claimed is:

1   A method for electronic ticket information squirting, wherein said method is
2   comprised of the steps of:
3   inputting user identification information;
4   wirelessly retrieving event information;
5   wirelessly retrieving an electronic event ticket; and
6   wirelessly squirting said electronic event ticket to a ticket agent.

1   2. The method, as in Claim 1, wherein said method is further
2   comprised of the step of:
3   performing said electronic ticket information squirting on a personal
4   communication device (PCD).

1   3. The method, as in Claim 2, wherein said personal communication
2   device is further comprised of:
3   a personal digital assistant (PDA).

1   4. The method, as in Claim 1, wherein said event information is further
2   comprised of:
3   a travel itinerary.

1   5. The method, as in Claim 1, wherein said event information is further
2   comprised of:
3   an entertainment itinerary.

1   6. The method, as in Claim 1, wherein said method is further comprised
2   of the step of:
3   monitoring said event information.

1   7. A method for electronic baggage information squirting, wherein said
2   method is comprised of the steps of:
3   inputting user identification information;

Case: 10007470-1

4   wirelessly retrieving baggage information;

5   wirelessly retrieving an electronic baggage claim check; and

6   wirelessly squirting said electronic baggage claim check to a ticket agent.

1   8. The method, as in Claim 7, wherein said method is further comprised

2 of the step of:

3   performing said electronic baggage information squirting on a personal

4 communication device (PCD).

1   9. The method, as in Claim 8, wherein said personal communication

2 device is further comprised of:

3   a personal digital assistant (PDA).

1   10. The method, as in Claim 7, wherein said method is further comprised

2 of the step of:

3   monitoring said baggage information.

1   11. A computer-readable medium having computer-executable

2 instructions for the method recited in Claim 1.

1   12. A computer-readable medium having computer-executable

2 instructions for the method recited in Claim 7.

1   13. A program storage medium readable by a computer, tangibly

2 embodying a program of instructions executable by the computer to perform

3 method steps for electronic ticket squirting, said method steps comprising:

4   inputting user identification information;

5   wirelessly retrieving event information;

6   wirelessly retrieving an electronic event ticket; and

7   wirelessly squirting said electronic event ticket to a ticket agent.

1   14. The method, as in Claim 13, wherein said method is further

2 comprised of the step of:

3   monitoring said event information.
